

BETHEL PARK ELEMENTARY SCHOOL

Bethel Park, Pennsylvania · Bethel Park School District

1,800	2026	280,000	5 → 1
K–5 learner capacity	Opened fall 2026	Square feet	Schools united

THE VISION

Bethel Park consolidated its elementary schools into one new K–5 center, designed to support collaboration and remove travel between buildings. The district wanted every space, from classrooms to the library, to support movement and modern teaching.

DESIGN HIGHLIGHTS

- Collaborative tables in every classroom
- Library with curved, mobile shelving
- Corridor breakout zones outside classrooms
- Soft seating for reading and small groups
- Spaces scaled for primary and intermediate

KAY-TWELVE AS LEARNING SPACE INTEGRATOR

Beyond furnishing the building, we helped staff prepare for new ways of teaching as five schools became one.

01 Listen
Learned how each school's teachers worked before the move

02 Plan
Planned and managed the FF&E budget for the full building

03 Prepare
Led professional development on flexible learning spaces

04 Install
Installed for the fall 2026 opening

> *Kay-Twelve approached this work with purpose, empathy, and a strong commitment to ensuring that people, not just spaces, were prepared for change.*
> **— Mandi S. Figlioli, Assistant Superintendent**
